Tisha Thakral

About

Dedicated and motivated web development enthusiast seeking an internship/job opportunity in web development to apply and expand my skills while contributing to the success of a dynamic team.

Education

- Bachelor's of Technology in AIML**

Present

Guru Tegh Bahadur Institute of Technology, Delhi
- Senior Secondary (XII), Science**

Yuva Shakti Model School, Delhi

Projects

- Naturaleza**

Jun2022-Present

Co-lead

* Developed a fully functional e-commerce website using React, Next JS, and CSS along with a team.

* Designed and implemented the front end using responsive web design principles.

* I worked on the database of the website where I collected information about a product and get it's all its information and worked on it.
- NetflixClone**

Jun2023-Present

* Designed and developed a Netflix Clone using HTML and CSS from scratch.

* NetflixTt is a limited Netflix design clone that lets you browse and stream trailers for movies and shows that I have created.

* Utilized responsive design to ensure compatibility with various devices and screen sizes.

* Deployed the project on Netlify.
- NewsArticleHub**

Aug2023-Present

* NewsArticleHub is a web development project focused on creating a responsive news article page with dynamic dark mode functionality. This project showcases my skills in HTML, CSS, Bootstrap, and JavaScript.

* Utilized responsive design to ensure compatibility with various devices and screen sizes.

* To enhance user engagement and visual appeal, I incorporated CSS animations on the article page.

* Deployed the project on Netlify.
